

## Excellence at your service

We take pride in providing best-in-class service whether your event requires 1 or 1000 receivers.

Our technicians and event coordinators contribute to your event's success.

Our wireless portable receivers combine convenience, crystal-clear reception even in noisy environments and adjustable volume.

## Excellence in Simultaneous Translation

**WORLD-CLASS  
SIMULTANEOUS TRANSLATION  
FOR WORLD-CLASS EVENTS**

[www.clp.com.mx](http://www.clp.com.mx)

## Fluency and Accuracy in Technical Terms

Our translators prepare before your event by studying the technical terminology needed to ensure proper usage.

Our mission is serving as an instrument to ensure 100% comprehension for the audience by using appropriate technical terms.

Because our

simultaneous translation service is performed in real time, participants can follow the speaker without delay and can even ask questions or make comments as if everybody spoke the same language. This is all “invisible” to the speaker, who addresses his audience as if he were talking to native speakers of his own language.

The speaker is also given a wireless receiver so that he can interact with the audience in real time as needed.

Our expertise includes many technical fields such as: Engineering, Quality, Medicine, Chemistry, Agriculture, Cattle Breeding, Animal Science, Management, Finance, IT, Electronics, Machining, Manufacturing, Sales, Construction, Leadership, Foreign Trade, Law, Industrial Safety, EH&S, Ecology, Biology, Windpower.

## An Award Winning Service

In addition to constant positive feedback from our customers regarding the quality of our service, we are proud to have been awarded the “**Best Service Supplier**” recognition by the Asociación de Maquiladoras y Exportadoras, A.C. (Maquiladora and Export Company Association).

## Flexibility to Serve You Better

Whether your event will be held in a meeting room, convention center, theater, classroom, office, factory floor or outdoors, you can ensure maximum comprehension for your audience.

Because our receivers are fully portable, we can provide our service in a wide variety of settings.

Translation for Speakers during a Question and Answer Session at a Hydroponics Conference

## Your Success is Our Commitment

Like you, we know that the success of an event where there are speakers of several languages is directly related to the quality of the translation service.

A world-class speaker deserves world-class translation!
